## **DETAILED ACTION**

### ***Drawings***

The drawings objection is withdrawn in light of the amendment to the drawings and the specification dated 7/13/04.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1,13 and 31-33 are rejected under 35 U.S.C. 102(e) as being anticipated by Ding et al (US Pat# 6,316,018). Ding discloses a drug-releasing coatings for medical devices that includes a urinary catheter having a reservoir layer with an antibiotic and an outer layer with a surfactant. The reservoir layer may be composed of several layers (barrier layer) depending on the elution rates of the drugs. See 7:65-8:4. The coatings may also be used with a blood-contacting device.

### ***Allowable Subject Matter***

Claims 2-12, 14-17,19,21-29 and 34-36 are allowed.

Art Unit: 3763

***Response to Arguments***

In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., long term release is over a period of 3 months) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
